Dear Jane -

Please give this serious consideration. Our youth is so overdosed on sugars, sweeteners it's tragic!

age 9

The consumption of added sugar has jumped 25 percent since 1984, squeezing healthy foods out of the diet. As a member of the Center for Science in the Public Interest (CSPI), I urge the FDA to establish a "Daily Reference Value" for added sugar of 40 grams and to require labels to disclose how much added sugar a food contains.
